

# Quick Reference Guide

STARTER FEEDS	PROTEIN	FAT	LYSINE	FORM	MEDICATION	HOW TO
600 Neo Starter	25%	5.5%	1.7%	Pellet	Denagard	600 Neo Starter's amazing palatability and early acceptance lends itself to fit as both a creep feed and the <b>IDEAL</b> option post weaning. (1-2 bags per litter). Creep 600 in the crate a week prior to weaning.
603	24%	6.5%	1.6%	Pellet	Denagard	603 is an option between 600 and 606 Blitz. 603 feeds much like 606 Blitz with an <b>ACCELERATED</b> response.
606 "Blitz"	23%	6.5%	1.5%	Pellet	Denagard	606 Blitz delivers <b>QUICK BLOOM</b> for a reliable <b>SALE-READY</b> look.
612 Starter	23%	7.0%	1.5%	Meal/Pellet	Denagard	<b>MAINTAIN BLOOM</b> on 7 to 10-week-old pigs with 612.
648	20%	7.0%	1.3%	Meal	Denagard	648 is a <b>GREAT OPTION</b> when selling at an older age (9-15 weeks). Will promote <b>PROPER BLOOM</b> without being overly aggressive in extreme muscle development. Very good receiving feed.

GROWER/ FINISHER FEEDS	PROTEIN	FAT	LYSINE	FORM	MEDICATION	HOW TO
611 "Scud Missile" <i>(W/ OR W/O RACTOPAMINE)</i>	23%	7.0%	1.5%	Meal/Pellet	Bambermycins or Ractopamine	Scud Missile is great to start on, for the final push or anytime for extra <b>BULK &amp; MASS</b> . Extremely quick results when <b>FAT &amp; BLOOM</b> are needed. Mixes great with 632 (even more bulk) or 685 (even fleshier) to fine tune.
632	20%	5.0%	1.4%	Meal/Pellet	Safe Guard/ BMD	Great option with Safe Guard de-wormer. 632 is the feed for <b>MUSCLE &amp; SHAPE</b> . It can be fed anytime throughout the feeding period. Blends great with 685 (to grow and maintain) or 611 (for more bulk).
672 "Half N Half"	18%	6.0%	1.2%	Meal/Pellet	Bambermycins	For feeding ease, 672 is a 50/50 blend of 632 & 685 for the same success with no mixing. Great for the middle stage of the feeding period to <b>MAINTAIN</b> development. A convenient option to reap the benefits of the tried & proven feeds in one.
685	16%	6.5%	1.0%	Meal/Pellet	Bambermycins	685 is the 16% of choice as it allows you to <b>MAINTAIN</b> a proper growth rate and muscle development. 685 is truly a <b>SAFE</b> feed that preserves a show-ready look. Blends great with 632 (to grow and maintain) or 611 (to flesh even more).
686 "Shape & Guts"	14%	8.5%	0.8%	Meal	BMD	The original <b>SHAPE &amp; GUTS</b> . Offers a <b>SOFT &amp; FRESHER</b> look on heavy muscle pigs. Feed continually for more <b>RIB &amp; FLANK</b> . Pairs great with 611 in the end to add fullness and freshness.
688	17%	6.5%	1.0%	Meal	N/A	688 is gaining popularity as a solid option through the critical phase of development. It supports all the essential requirements for appropriate growth with a <b>HIGHER FIBER</b> level. This balance lends itself to be a great option for breeding gilts.
